

# RICARDO CASTELLÓ BERENGUER

## Frontend Developer with Fullstack Experience

### PROFESSIONAL SUMMARY

Proven track record building high quality applications that significantly improved overall engagement and user satisfaction. Proactive approach with a strong focus on clean code and innovation backed by my experience in diverse settings, from small companies to independent software development projects, allowing me to adapt and deliver value in diverse settings.

### MOST RECENT PROFESSIONAL EXPERIENCE

#### Independent/Freelance Software Developer

March 2023 - Present [Alicante, Spain]

- Achieved timely and efficient project deliveries, meeting agreed-upon deadlines while maintaining high-quality standards.
- Ensured inclusivity in SEO strategies, implementing accessibility features and semantic HTML across projects, resulting in an improvement in search engine rankings for diverse user queries.
- Designed intuitive UX/UI, enhancing website interactivity and improving user engagement with a focus on user-friendly and aesthetically pleasing interfaces.
- Implemented optimization strategies using AWS services, Docker, and efficient coding practices, leading to a 40% reduction in page load times and a 20% improvement in overall application speed.
- Designed intuitive UX/UI interfaces with React, Nuxt.js and Vue.js leading to an increase in user satisfaction and interaction, resulting in improved user retention rates.

#### Full stack developer at Tres Tristes Tigres

August 2022 - February 2023 [Alicante, Spain] [Web development agency and digital marketing, B2B]

- Significantly enhanced the performance of existing applications, reducing load times by 18% and improving overall user experience. Design and develop scalable and robust full-stack solutions.
- Contributing to project scalability, leading to a 24% reduction in overall costs through strategic development.
- Collaborate with cross-functional teams to gather requirements and implement solutions.
- Implemented responsive design principles, enhancing the accessibility of applications across various devices and browsers, resulting in improved user satisfaction and engagement.
- Identified and promptly resolved critical issues over 700 linter errors, minimizing downtime and ensuring stable application operation.
